PERSONAL DETAILS

Date of Birth

22 December 1999

Gender

Male

Nationality

Pakistani

Location

Pirmahal, Punjab, Pakistan

CORE SKILLS

- › Python (Pandas, NumPy, Matplotlib)
- › SQL · PostgreSQL · MySQL
- › Power BI · Looker Studio
- › Microsoft Excel (Pivot, Charts)
- › ETL Pipeline Design
- › Data Cleaning & EDA
- › KPI Development
- › Dashboard & Report Design
- › DAX · Data Modelling

LANGUAGES

Urdu ●●●● Native
English ●●●○ Intermediate
Punjabi ●●●● Native

CERTIFICATIONS

DataCamp

› Professional Data Analyst

PROFESSIONAL SUMMARY

Results-driven Data & Business Analyst with hands-on experience transforming large scale datasets into actionable business intelligence. Skilled in building end-to-end ETL pipelines, advanced SQL analysis, and executive-level Power BI and Looker Studio dashboards. Proven track record of delivering measurable outcomes from reducing enrollment cost by 12% to uncovering \$36.7M in supply chain sales patterns. Passionate about turning raw data into clear, decision-ready insights.

WORK EXPERIENCE

Data Science & Analytics Intern

Developer Hub Corporation (Remote) / Aug 2025 – Oct 2025

- Built ML models for marketing, sentiment analysis, and energy forecasting using Python & Scikit-learn.
- Standardized and cleaned large datasets to improve downstream model accuracy and consistency.
- Designed KPI dashboards to visualize business trends and support data-driven decisions.

Data Analyst Intern

Saint Louis University — Excelerate (Remote) / Sep 2025 – Oct 2025

- Integrated and analyzed 6 datasets (Learner Opportunity, User Data, Cohort) into a unified reporting layer.
- Built validation frameworks and dashboards tracking campaign engagement and enrollment effectiveness.
- Defined and documented KPIs for marketing and education performance measurement.

Associate Data Analyst Intern

Saint Louis University — Excelerate (Remote) / Jun 2025 – Aug 2025

- Queried and analyzed 45,000+ student records in PostgreSQL to surface enrollment patterns.
- Built Looker Studio dashboards mapping full enrollment funnels from outreach to conversion.
- Delivered weekly insights that optimized campaigns and reduced cost per enrollment by 12%.

KEY PROJECTS

Supply Chain Analytics & Performance Optimization

Tools: Python · SQL · PostgreSQL · Excel · Power BI

- Processed 180,000+ supply chain records through an end-to-end ETL pipeline built with Python & Pandas.
- Designed star schema data warehouse in PostgreSQL (1 fact + 4 dimension tables) for efficient BI queries.
- Wrote 15+ advanced SQL queries using CTEs, window functions, RANK and DENSE_RANK to expose inefficiencies.
- Identified 57.3% order delay rate; First Class shipping showed 100% late delivery, prompting restructuring recommendation.
- Analyzed \$36.7M in sales across 5 global markets — Europe top at \$10.8M, Fan Shop most profitable at \$1.83M.
- Delivered 5-page executive Power BI dashboard and Excel business report with 5 pivot tables.

Retail Sales & Profit Performance Analysis

Tools: Python · PostgreSQL · Power BI · Excel

- Analyzed 51,290 rows of global retail data across 147 countries using Python ETL and advanced PostgreSQL queries.
- Built 4-page interactive Power BI dashboard revealing 22% of orders are unprofitable due to excessive discounting.

› EDA with Excel

Outreach & Applicant Insights Dashboard

Tools:

Python · Looker Studio · SQL · Excel

▪

Cleaned and integrated 37,000+ outreach records across 3 datasets for SLU enrollment campaigns.

▪

Built Looker Studio dashboard tracking 26,155 contacts across 23 campaigns with 20.87% response rate.

TECHNICAL SKILLS

Programming	Python, SQL, DAX
Databases	PostgreSQL, MySQL, Star Schema Design
BI & Reporting	Power BI, Looker Studio, Microsoft Excel
Data Skills	ETL, EDA, Data Cleaning, KPI Development, Dashboard Reporting
Libraries	Pandas, NumPy, Matplotlib, Seaborn

EDUCATION & TRANING

BS Software Engineering

University of Management and Technology (UMT), Lahore, Pakistan / 2019 – 2024

Data Analysis Course

Zynex Solutions (Remote) / Jul 2025 – Aug 2025
